

Sample PDF for LangGraph AI Agent Demo

This document is created to test the PDF Reader and Summarization tool in the LangGraph ReAct AI Agent project.

Artificial Intelligence

Artificial Intelligence (AI) is a field of computer science that develops systems capable of learning, reasoning, solving problems, and understanding natural language.

Applications

AI is used in healthcare, finance, robotics, autonomous vehicles, recommendation systems, cybersecurity, and education.

Conclusion

This sample PDF is designed to verify that the LangGraph ReAct Agent can successfully read and summarize PDF documents.
